

Adrian Sanchez

Senior Full-Stack Developer | Frontend & Cloud Infrastructure

📍 Berlin, Germany ✉ adrian@lizardstech.com 🌐 adrianisanchez.com 🔗 adrian-isaias-sanchez

Summary

Senior full-stack developer with 5+ years building user interfaces and cloud infrastructure for B2B platforms. Customizes platform products with frontend components, sets up AWS infrastructure with Terraform and Docker, manages CI/CD pipelines, and integrates APIs. Works directly with product owners to translate functional requirements into technical solutions.

Experience

Senior Software Engineer, Innovandio GmbH

Oct 2023 – May 2026
Berlin (remote)

- Developed custom Angular frontend plugins on top of the OpenProject platform for Mercedes-AMG, translating client requirements into UI components for agenda management, meeting minutes, and PowerPoint exports
- Established and maintained AWS cloud infrastructure with Terraform and engineered CI/CD pipelines on GitHub Actions with Docker and SonarQube quality gates, reducing deployment failures and release times
- Architected API integrations (Microsoft Graph API, Power BI, Twilio, APNs, FCM, POS payment terminals) for a multi-service platform powering 30+ locations and 3,000+ users across Germany and Austria

Tech Stack: Angular.js, Vue.js, Ruby on Rails, PostgreSQL, Redis, Terraform, Docker, AWS

Full Stack Software Engineer / Team Lead, Demodesk GmbH

Feb 2022 – Sept 2023
Munich (remote)

- Shipped frontend and backend features end to end for a B2B SaaS platform used by 20,000+ users, from system design with product managers and designers to production deployment
- Owned API integrations with Salesforce, HubSpot, Pipedrive, and Google Meet, plus scheduling, user onboarding, and core video workflows
- Led a team of ~10 engineers, conducting code reviews and cutting engineering backlog by ~40 percent while maintaining continuous feature delivery
- Refactored core modules and reduced codebase complexity by ~15 percent, improving system reliability and performance

Tech Stack: Vue.js, Ruby on Rails, PostgreSQL, Redis, Terraform, Gitlab, AWS

Software Engineer (Intern), Setting HQ

Oct 2020 – Feb 2022
Berlin

- Optimized the platform's Office Search functionality, reducing page load times by 45%
- Developed an office onboarding system, digitizing a previously manual and error-prone process
- Eliminated legacy dependencies by migrating the platform to a modern system architecture

Education

B.Sc. Business Informatics (Wirtschaftsinformatik)

2018 – 2022

Technische Universität Berlin

Skills

Frontend: JavaScript, TypeScript, HTML5, CSS, Angular, Vue.js, React

Infrastructure: AWS, Terraform, Docker, Git, CI/CD (GitHub Actions, GitLab)

Backend: Ruby on Rails, PostgreSQL, Redis, REST APIs

Integrations: Microsoft Graph, Power BI, CRMs, payments, LLMs

Languages

Spanish (native), English (fluent), German (fluent)
