

# Adrian Sanchez

Senior Fullstack Engineer

📍 Berlin, Germany | ✉ adrian@lisztotech.com | 🌐 adrianisanchez.com | 🌐 adrian-isaias-sanchez

## Summary

---

Senior Fullstack Engineer with 5+ years building and scaling B2B SaaS platforms end to end, from software architecture and REST APIs to frontend delivery and cloud-native deployment. Comfortable owning features from design to production in agile, cross-functional teams, with a strong focus on quality and automated testing.

## Experience

---

**Senior Software Engineer**, Innovandio GmbH – Berlin

Oct 2023 – May 2026

- Architected backend systems and REST API integrations (Twilio, APNs, FCM, Microsoft Graph API, Power BI, Timecard, POS payment terminals) for a multi-service platform powering 30+ car wash and gas stations across Germany and Austria, serving 3,000+ users
- Engineered CI/CD pipelines on AWS and GitHub Actions with Docker and SonarQube quality gates, reducing deployment failures and release times
- Built an AI-powered billing pipeline integrating GitHub, calendar, video call, and project management data that automated client reporting and reduced it from a full day per month to 10 minutes per week
- Developed custom Angular plugins on top of OpenProject's Rails backend for Mercedes-AMG, covering agenda management, meeting minutes, and PowerPoint exports

**Tech Stack:** Ruby on Rails, PostgreSQL, Redis, REST APIs, Vue.js, Angular.js, Terraform, AWS, Docker

**Full Stack Software Engineer / Team Lead**, Demodesk GmbH – Munich

Feb 2022 – Sept 2023

- Led a team of ~10 engineers maintaining core backend services for a B2B SaaS platform used by 20,000+ users
- Shipped features end to end, from system design to production deployment
- Owned scheduling, Salesforce/HubSpot/Pipedrive integrations, user onboarding, and core video workflows
- Worked in a cross-functional feature team that integrated Google Meet to the platform
- Refactored core modules and reduced codebase complexity by ~15 percent
- Reduced engineering backlog by ~40 percent during team lead period while maintaining continuous feature delivery

**Tech Stack:** Ruby on Rails, PostgreSQL, Redis, REST APIs, Vue.js, Terraform, Gitlab, AWS

**Ruby on Rails Engineer (Intern)**, Setting HQ – Berlin

Oct 2020 – Feb 2022

- Optimized the platform's Office Search functionality, reducing page load times by 45%.
- Developed an office onboarding system, digitizing a previous manual and error-prone system
- Eliminated legacy dependencies by migrating the platform to a modern system architecture

## Education

---

**Technische Universität Berlin**, B.Sc. in Business Informatics (Wirtschaftsinformatik)

2018 – 2022

## Skills

---

**Backend:** Ruby on Rails, REST APIs, PostgreSQL, Redis

**Frontend:** Vue.js, React, Angular.js, TypeScript

**DevOps:** AWS, Docker, Terraform, CI/CD

**Practices:** Software architecture, scalable design, automated testing, agile teams

## Languages

---

**Languages:** Spanish (native), English (fluent), German (fluent)
