

Adrian Sanchez

Senior Full-Stack Engineer | Ruby on Rails

📍 Cuernavaca, Mexico ✉ adrian@lisztostech.com 🌐 adrianisanchez.com 🔗 adrian-isaias-sanchez

Summary

Senior full-stack engineer with 5+ years building high-quality B2B SaaS products on Ruby on Rails. Ships maintainable, well-reviewed code end to end, works directly with clients in English, and collaborates closely with PMs, QA, and designers in fully remote teams.

Experience

Senior Software Engineer, Innovandio GmbH

Oct 2023 – May 2026
Berlin (remote)

- Worked directly with enterprise clients including Mercedes-AMG, gathering requirements and delivering custom features on OpenProject's Rails backend, from agenda management to PowerPoint exports
- Architected backend systems and integrations (Twilio, APNs, FCM, Microsoft Graph API, Power BI, POS payment terminals) for a multi-service Rails platform powering 30+ locations and 3,000+ users across Germany and Austria
- Engineered CI/CD pipelines on AWS and GitHub Actions with Docker and SonarQube quality gates, reducing deployment failures and release times
- Built an AI-powered billing pipeline integrating GitHub, calendar, video call, and project management data, cutting client reporting from a full day per month to 10 minutes per week

Tech Stack: Ruby on Rails, PostgreSQL, Redis, Vue.js, Angular.js, Terraform, AWS

Full Stack Software Engineer / Team Lead, Demodesk GmbH

Feb 2022 – Sept 2023
Munich (remote)

- Led a team of ~10 engineers maintaining core backend services for a B2B SaaS platform used by 20,000+ users, conducting code reviews and mentoring teammates
- Shipped features end to end, from system design with PMs and designers to production deployment
- Owned scheduling, Salesforce/HubSpot/Pipedrive integrations, user onboarding, and core video workflows
- Refactored core modules and reduced codebase complexity by ~15 percent; cut engineering backlog by ~40 percent as team lead while maintaining continuous feature delivery

Tech Stack: Ruby on Rails, Vue.js, PostgreSQL, Redis, Terraform, Gitlab, AWS

Ruby on Rails Engineer (Intern), Setting HQ

Oct 2020 – Feb 2022
Berlin

- Optimized the platform's Office Search functionality, reducing page load times by 45%
- Developed an office onboarding system, digitizing a previously manual and error-prone process
- Eliminated legacy dependencies by migrating the platform to a modern system architecture

Education

B.Sc. Business Informatics (Wirtschaftsinformatik)

2018 – 2022

Technische Universität Berlin

Skills

Backend: Ruby on Rails, PostgreSQL, Redis

Frontend: Vue.js, React, TypeScript, JavaScript

DevOps: AWS, Terraform, Docker, CI/CD

Integrations: CRMs, LLMs, payments, reporting

Languages

Spanish (native), English (fluent), German (fluent)
