

Adrian Sanchez

Backend Engineer | Ruby on Rails

📍 Cuernavaca, Mexico ✉ adrian@lisztotech.com 🌐 adrianisanchez.com 🔗 adrian-isaias-sanchez

Summary

Backend engineer with 5+ years building B2B SaaS platforms on Ruby on Rails and PostgreSQL. Owns backend architecture, complex third-party integrations, and deployment on AWS, with end-to-end responsibility across APIs and infrastructure.

Experience

Senior Software Engineer, Innovandio GmbH

Oct 2023 – May 2026
Berlin

- Architected backend systems and integrations (Twilio, APNs, FCM, Microsoft Graph API, Power BI, Timecard, POS payment terminals) for a multi-service Rails platform powering 30+ car wash and gas stations across Germany and Austria, serving 3,000+ users
- Engineered CI/CD pipelines on AWS and GitHub Actions with Docker and SonarQube quality gates, reducing deployment failures and release times
- Built an AI-powered billing pipeline integrating GitHub, calendar, video call, and project management data that automated client reporting and reduced it from a full day per month to 10 minutes per week
- Developed custom Angular plugins on top of OpenProject's Rails backend for Mercedes-AMG, covering agenda management, meeting minutes, and PowerPoint exports

Tech Stack: Ruby on Rails, Matestack, PostgreSQL, Redis, Vue.js, Angular.js, Terraform, AWS

Full Stack Software Engineer / Team Lead, Demodesk GmbH

Feb 2022 – Sept 2023
Munich

- Led a team of ~10 engineers maintaining core backend services for a B2B SaaS platform used by 20,000+ users
- Reduced engineering backlog by ~40 percent during team lead period while maintaining continuous feature delivery
- Worked in a cross-functional feature team that integrated Google Meet to the platform
- Owned scheduling, Salesforce/HubSpot/Pipedrive integrations, user onboarding, and core video workflows
- Shipped features end to end, from system design to production deployment
- Refactored core modules and reduced codebase complexity by ~15 percent

Tech Stack: Ruby on Rails, Vue.js, PostgreSQL, Redis, Terraform, Gitlab, AWS

Ruby on Rails Engineer (Intern), Setting HQ

Oct 2020 – Feb 2022
Berlin

- Optimized the platform's Office Search functionality, reducing page load times by 45%.
- Developed an office onboarding system, digitizing a previous manual and error-prone system
- Eliminated legacy dependencies by migrating the platform to a modern system architecture

Education

B.Sc. Business Informatics (Wirtschaftsinformatik)

2018 – 2022

Technische Universität Berlin

Skills

Backend: Ruby on Rails, PostgreSQL, Redis

DevOps: AWS, Docker, Terraform, CI/CD

Integrations: CRMs, LLMs, payments, reporting

Frontend: Vue.js, React, TypeScript

Languages

Spanish (native), English (fluent), German (fluent)
